LAFAYETTE IMPROVEMENT ASSOCIATION

March 17, 1975

The Lafayette Improvement Association met on March 17th with the meeting called to order at 8:15. Those present were Tom Whitten, Ed Thiede, Jim Amos, John Tatum, Ann Thompson, Jim Polk and Barbara May.

The minutes were read and corrected.

John Tatum, treasurer gave a report showing a total of ~~1076.36 4779.72~~ $3853.33 in the savings account and $1076.36 in the checking account.

Bill Gardner, the owner of Western Sand and Gravel, spoke of his attempts to improve the looks of his property and seemed genuinely interested in having the property nicely landscaped so it would be an asset to the community not only for those entering town but for the neighbors in Lafayette.

The nominating committee was chosen which included Tom Cleveland, Barbara May, Bob Gilliland, Ed Thiede and Bob Kramer.

Our general meeting will be in May and in all probability be on the pros and cons of the Kaiser Estate.

The meeting was then adjourned to attend the Traffic Commission meeting. We spoke to them of our interest in trying to improve traffic conditions at Moraga and Mt. Diablo and re arranging of the white lanes on Moraga just after turning off Mt. Diablo Blvd.

We also agreed with the Traffic Commission that some sort of solution had to be made regarding the Moraga Traffic and a corridor type of road in the Burton Valley area would be acceptable.

Respectfully submitted

Barbara May
